Types of scholarships (SIIT 4-Year Continuing Scholarship program)

1. Scholarship for Talented Students in Science and Technology (ST)²

Requirement (Choose to submit the documents either one of them)

- Students who have passed the second POSN Training Camp
- Students who have passed the first and second IPST Training Camp (students can apply and interview to get the full scholarship in the Inter Portfolio 1 round. If students intend to apply for (ST)² scholarships, they must apply during the OSP Round only)
- The students who are the representatives or have won a prize in the National Project/Competition or equivalent.
- The students who are the representatives or have won a prize in the International Project/Competition or equivalent.
- Other Project/Competition or equivalent.

Students will have 100% of SIIT tuition and educational support fees waived for each semester; including SIIT rental fees. Students who graduate with this scholarship will be considered for a continued scholarship until the completion of their doctoral degree at SIIT, plus other benefits specified by the institute.

SIIT will consider scholarships based on the certificates that the applicants have submitted along with the scholarship examinations and interviews. The final decision for successful candidates will be made by the SIIT committee and SIIT reserves the rights to change the policy without prior notice.

2. **Full Scholarship:** waiving 100% of SIIT tuition and educational support fees for each semester.
3. **Half Scholarship:** waiving 50% of SIIT tuition and educational support fees for each semester.
4. **Quarter Scholarship:** waiving 25% of SIIT tuition and educational support fees for each semester.

Note: Students who have received a scholarship will have only their SIIT tuition and educational support fees waived, excluding other expenses from Thammasat University such as damage insurance, Thammasat University registration fees, and Thammasat University educational support fees.

There are no conditions after graduation but scholarship recipients are expected to maintain a GPAX not less than 2.75 for all types of scholarships, and also assist the institute's work. More details will be given on the agreement signing day.

Scholarship Candidates must take a written scholarship examination in English as follows:

- Engineering Programs No. 1 – 5: Mathematics, Physics, and English
- Engineering Programs No. 6 – 7: Mathematics and English
by calculating the weight of the mathematics test scores as 2/3 of the total scores.
- Science Programs No. 8 – 9: Mathematics and English
by calculating the weight of the mathematics test scores as 2/3 of the total scores.

Selection

- SIIT will consider scholarships based on scholarship examinations and interviews. The final decision for successful candidates will be made by the SIIT committee.
- For applicants who passed this round (OSP), regardless of whether or not they receive a scholarship, if they want to study at SIIT, they must apply via online application during the Inter Portfolio 1 Round without submitting a portfolio. If applicants do not apply according to the institution's schedule, it will be considered a waiver of admission and scholarships.

Qualifications

- Applicants must currently study at a high school level or equivalent, both domestically or internationally, and be in the final year of study and expected to graduate in the academic year 2022 with a total cumulative grade point average of Grade 10th – Grade 11th (4 – 5 semesters) not less than 2.75 from the CGPA system, or high school graduates or equivalent with a total cumulative grade point average of Grade 10th – Grade 11th (4 – 5 semesters) not less than 2.75 from the CGPA system.
- For applicants who have applied for Programs no. 1 – 5: applicants must currently study at a high school level or equivalent, or high school graduates or equivalent must have no fewer than 18 total credits in Physics and Mathematics or the equivalent.
- For applicants who have applied for Programs no. 6 – 9: applicants must currently study at a high school level or equivalent, or high school graduates or equivalent must have no fewer than 9 total credits in Mathematics or the equivalent.
- Must have all other qualifications as mentioned in the document “SIIT Announcement on Qualifications of Applicants for Undergraduate Admission B.E. 2562”

Remark: Applicants must earn a high school diploma that complies with the curriculum of the Ministry of Education (Thailand) or its equivalent before the TU new student registration period.

- If the institute finds that the qualifications of the applicant does not conform to the qualifications written in the schedule and the announcement of the institute, the application will be considered disqualified.
- The applicants must take an examination in the selected examination centers on the given date and time in the schedule. The Examination is subject to change, please follow any updates of the schedule.

Online Application

1. Please read the admission details and schedule carefully. This is to protect the interests of the applicants themselves.
2. Apply via online application at <http://admissions.siit.tu.ac.th> (Please read the 'How to apply' manual thoroughly before applying).
3. **No application fees.**

****Any applicants who wants to edit the information or attached documents must contact the Admission Division between 20 September – 20 October, 2021 during the application period only. After the application period, any requests to edit cannot be processed.**

Required Documents for Application (Upload as PDF files in the online application system, not exceeding 25 MB/file)

1. A copy of the high school transcript (4 semesters or up to current semester) or a copy of the high school transcript (high school graduates or equivalent: 6 semesters).

*In case that the applicants are not able to request or receive the official documents from their educational institution before the online application period ends, the applicants are allowed to submit unofficial documents instead, but the documents must be issued in the name of the educational institution or equivalent only.

2. A copy of a certificate or evidence that the applicants have received for training, have been selected to be a representative, or have received a prize.

*For the applicants who are qualified to apply for the Scholarship for Talented Students in Science and Technology (ST)² only.

(In case there are multiple files, please merge them into one file before uploading)

Due to the COVID – 19 Pandemic situation, the institute reserve the right to amend the terms and conditions or cancel the examination of the OSP Round. The final decision will be made by the SIIT committee.

The Agreement of Admission to Major Academic Program

SIIT have 3 fields of studies as follows:

Field of Studies	Programs
1. Engineering	<ul style="list-style-type: none"> ▪ Chemical Engineering ▪ Mechanical Engineering ▪ Civil Engineering ▪ Electrical Engineering ▪ Industrial Engineering and Logistics System
2. Computer Engineering and Digital Engineering	<ul style="list-style-type: none"> ▪ Computer Engineering ▪ Digital Engineering
3. Management	<ul style="list-style-type: none"> ▪ Management Technology ▪ Engineering Management

All SIIT students are eligible to select Major Academic Programs at the end of their first academic year. Successful admission to a preferred major depends on a student’s grade-point average at the end of their first academic year, as well as the demand for the chosen program. Priority for selection will be given to those students who have previously selected that field of study at the time of their SIIT admission.
